

Mill Creek Watershed Planning Meeting

The Sotoyome Resource Conservation District is pleased to announce that watershed planning and hydrology study efforts are underway in the Mill Creek watershed. Please join us to learn about strategies to improve stream flow for salmon and to meet agricultural and residential needs, and to learn how you can be involved in these efforts.

DATE: Saturday, February 27, 2010
TIME: 10:00 AM – 12:00 PM
LOCATION: Felta School House
1043 Felta Road, Healdsburg

Join speakers from a collaborative team of non-regulatory organizations including the Sotoyome RCD and UC Cooperative Extension's Coho Salmon Captive Broodstock Monitoring Program as they provide information, field questions and solicit input about:

- Recent grant funded opportunities to study water supply and demand issues in the Mill Creek watershed
- The status of coho salmon and steelhead trout in the watershed
- Alternative water conservation and storage project opportunities
- Watershed management planning
- Stream habitat enhancement projects

It's your watershed, your participation and feedback are vital for a successful planning effort!

To RSVP, for more information and directions please visit our website at www.sotoyomercd.org or contact Sierra Cantor at scantor@sotoyomercd.org or (707) 569-1448 x107.

Sotoyome Resource Conservation District is a local, non-regulatory natural resource conservation agency working to protect, conserve and improve the quality of soil and water in Sonoma County since 1945.
