

*Sotoyome RCD Presents*  
*Living on the Land: A practical workshop series*

**Saturday July 23<sup>rd</sup>**  
**9:00am-12:30pm**  
**Koret Club, Monte Rio**

*A free public workshop  
sponsored by the Sotoyome RCD  
with funding by the  
State Water Resources Control Board*

## **“Septics Unplunged”**

Understanding and managing septic systems old & new  
*to benefit your wallet & environmental health*

The lower Russian River, with many older septic systems installed near water, has suffered impacts to its water quality from failing systems that can leach harmful bacteria into the river.

### Workshop Goals:

Identify options for maintenance of your septic system.

Learn about resources available to you.

Overview voluntary monitoring to improve the river.

**To RSVP, please contact Rick Kaye**
